

# Analyzing and Visualizing WeRateDogs

## Introduction:

WeRateDogs has over 6 million followers and has received international media coverage. One of those coverage were about the quote “they’re - good dogs Brent”, this was an exchange in which WeRateDogs shut down a person having an issue with its rating system in humorous ways.

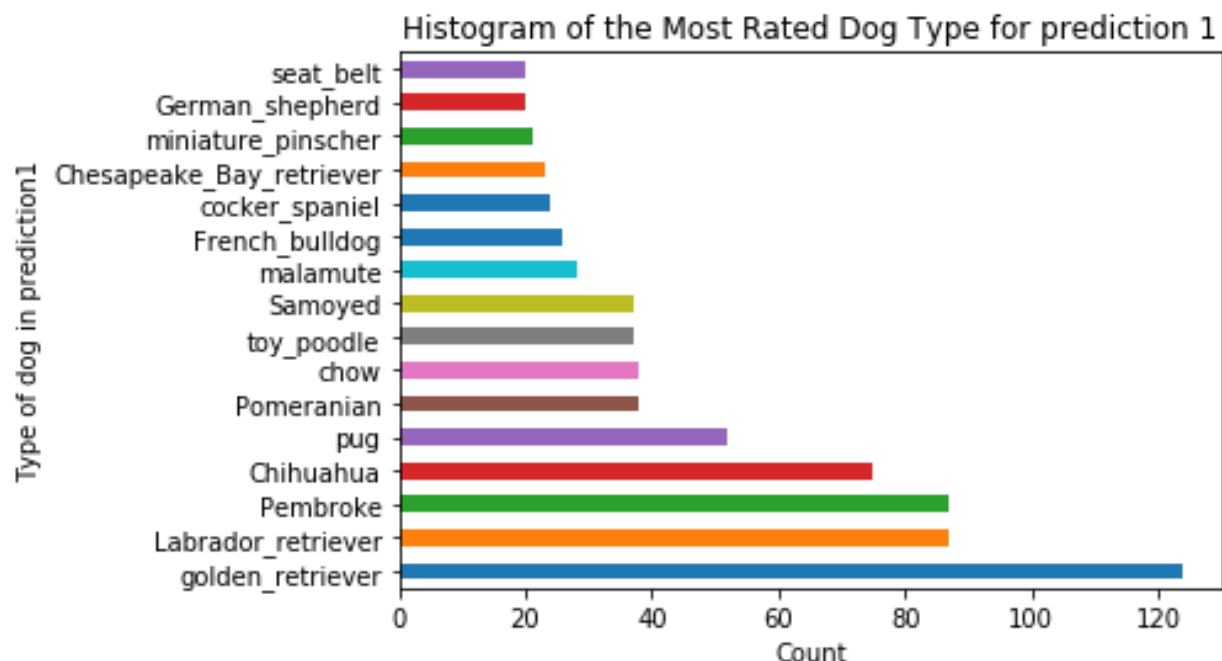

So what does this rating do? Which dog type(breed) is most common dog in the tweet dataset? Which dog name is the most popular one? These questions and more are answered in the following insights:

Insight one:

The most common dog type according to the prediction that have been made.

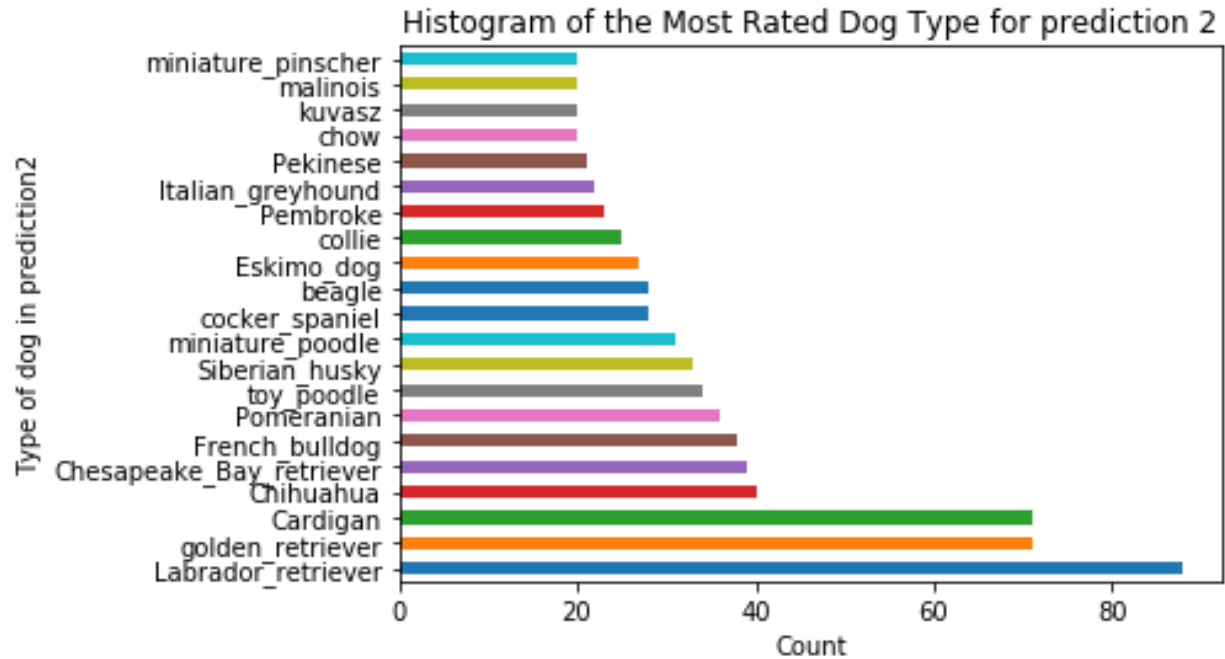

For Prediction 1:

The most common dog is Golden Retriever

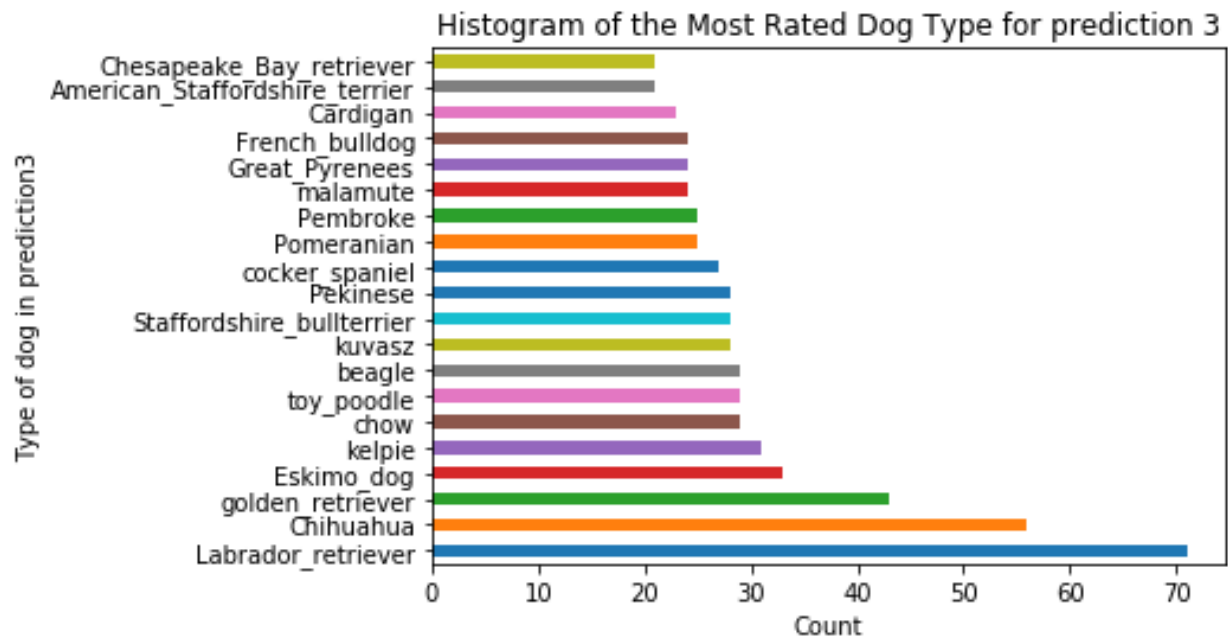

For prediction2:

Like the prediction 1, the most common dog is Golden Retriever.

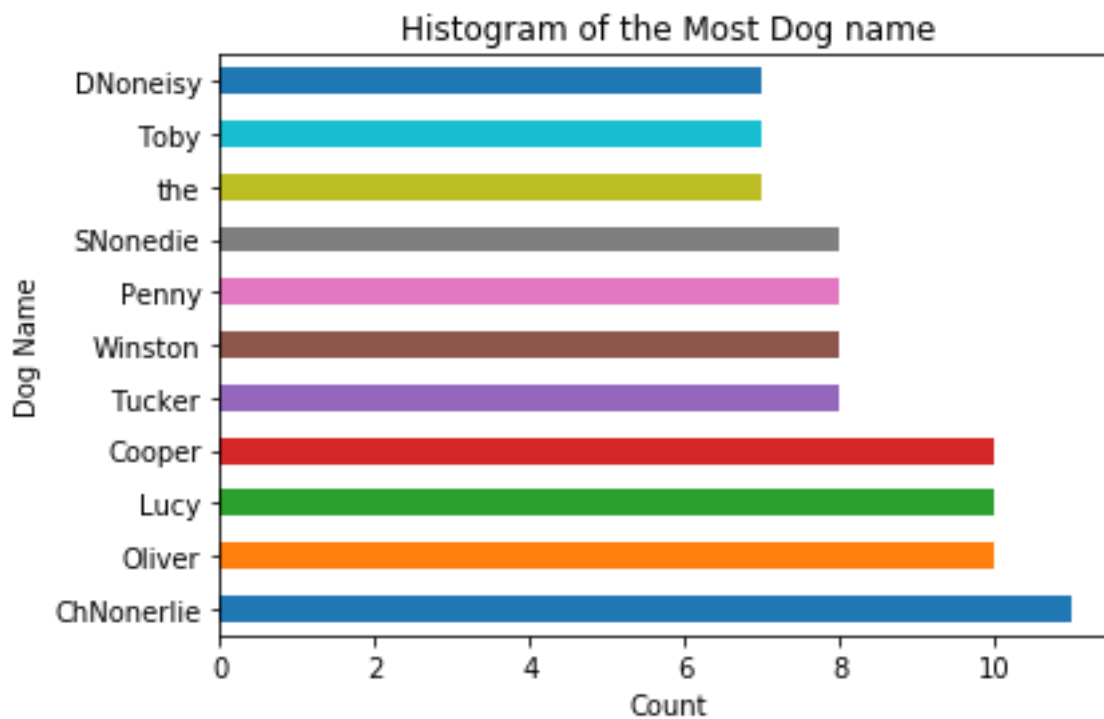

For prediction2:

Unlike the 2 pervious predictions, the most common dog is Labrador Retriever, while Golden Retriever comes in the third stage.

Insight two:

The most common used name, it was found that most of these doges was (Charlie) .

Insight three:

The most common dog stage is pupper with about 200 count while it follows by doggo stage that take less than 75 count.
